

2024 Community Stewardship Awards

About Our Awards

Celebrating for over 30 years

Our annual Community Stewardship Awards (formerly Heritage Awards) celebrates the people who make preservation happen: dedicated homeowners, insightful architects, creative developers, community partners, and visionary leaders.

Preservation Utah began recognizing individuals and groups with Community Stewardship Awards over thirty years ago.

Each award recipient represents, in one way or another, a model of historic preservation. As a group, the recipients represent the many and varied ways preservation is accomplished in our communities. Award recipients include innovative adaptive use projects, the tireless efforts of dedicated homeowners, threatened buildings that have been saved from destruction, and the lifetime efforts of committed preservationists. Through this awards program, Preservation Utah congratulates our award recipients and thanks them for their contribution to preserving Utah's architectural heritage.

Community Stewardship Awards are given only to building owners, companies and individuals in Utah who have shown the highest standard of preservation in their projects. It is a wonderful event that will leave you feeling inspired and motivated by the display of commitment to historic restoration and preservation.

Preservation enhances real estate values and fosters local businesses, keeping historic main streets and downtowns economically viable. Heritage tourism is a real economic force, one that is evident in places that have preserved their historic character. Developers are discovering that money spent rehabilitating historic buildings is actually an investment in the future, when these structures could be the showpieces of a revitalized city . . . Cities and towns that have embraced their heritage and allowed it to remain often take on a vibrant, eclectic feel, a trick that could not be pulled off in new construction by the cleverest architects.
