FRIDAY, APRIL 1

KEYNOTE ADDRESS FEATURING JOHN LAMBERT

Fallingwater – Cementing its Legacy

11:30 a.m. – 12:30 p.m.

Officer's Club, Fort Douglas, University of Utah, SLC

As owner of Abstract Masonry Restoration, **John Lambert** is a well-known contractor and consultant in Utah. In 2007, he received Utah Heritage Foundation's highest honor in preservation, the Lucybeth Rampton Lifetime Achievement Award.

Utilizing his personal philosophy of preservation, John will speak to his role as lead concrete and stone restoration trainer/consultant on one of America's most-esteemed architectural landmarks — Fallingwater — and how physical challenges at the property can also challenge personal preservation philosophy.

Designed by Frank Lloyd Wright atop a waterfall in the mountains of western Pennsylvania, Fallingwater is one of the most revered and extraordinary houses of the 20th century. Built primarily of

concrete and stone in 1936-1937 amidst harsh exposure conditions, these materials have suffered significant deterioration. Proper conservation or restoration of the historic concrete and stone have proven exceptionally challenging, but gaining first-hand insights can benefit the respectful restoration of Utah's mid-century modern buildings. **THIS IS A FREE PUBLIC EVENT.**
